The screenshot shows the IntelliJ IDEA IDE interface. On the left, the 'Project' view displays the file structure of a project named 'hello', including folders for 'idea', 'out', and 'src', and files like 'Main.java', 'DebugSample.java', 'pom.xml', and 'hello.xml'. The 'Main.java' file is open in the editor, showing the following code:

```

1  import java.io.IOException;
2  import java.util.ArrayList;
3  import java.util.List;
4  import java.util.Scanner;
5
6  public class DebugSample {
7      public static void main(String[] args) {
8          List sampleNames = createNames();
9          printNames(sampleNames);
10         addName(sampleNames, "Jane Doe");
11         printNames(sampleNames);
12     }
13
14     private static List createNames() {
15         ArrayList listNames = new ArrayList<String>();
16         listNames.add("John Doe");
17         listNames.add("Jane Doe");
18     }
19
20     private static void printNames(List<String> names) {
21         for (String name : names) {
22             System.out.println(name);
23         }
24     }
25
26     private static void addName(List<String> l, String name) { l.add(name); }
27
28     private static void removeNames(List l, String name) {
29         int position = l.indexOf(name);
30         if (position == -1) {
31             // the name is not in the list
32         }
33     }
34 }

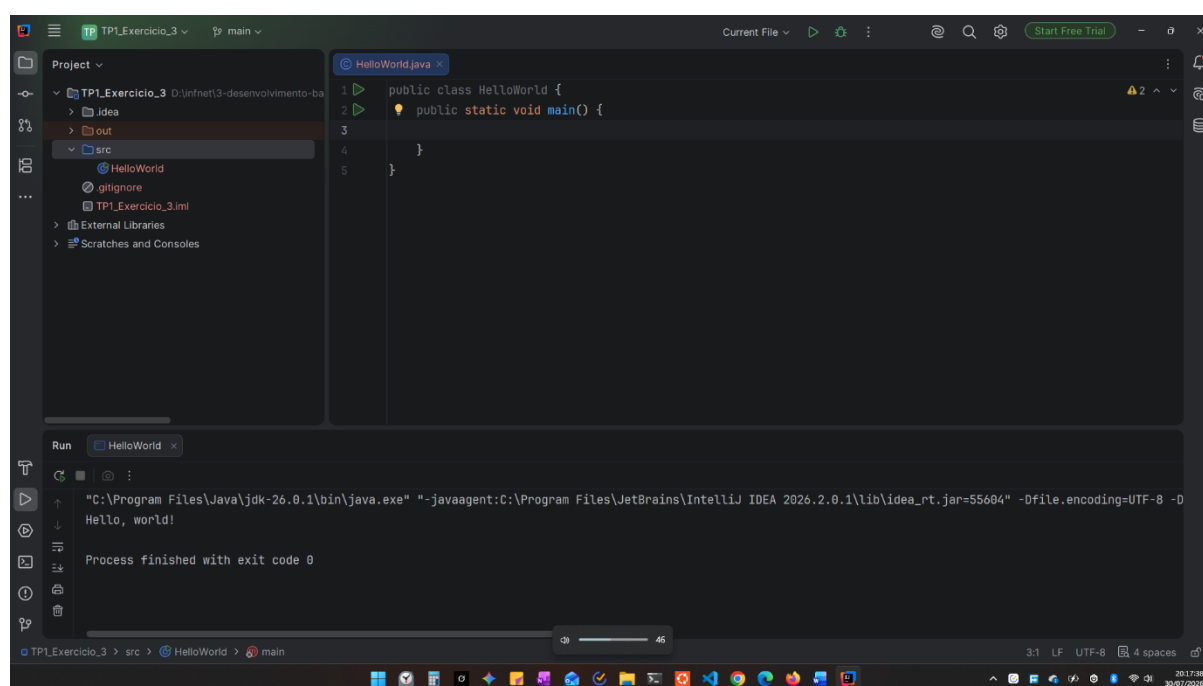

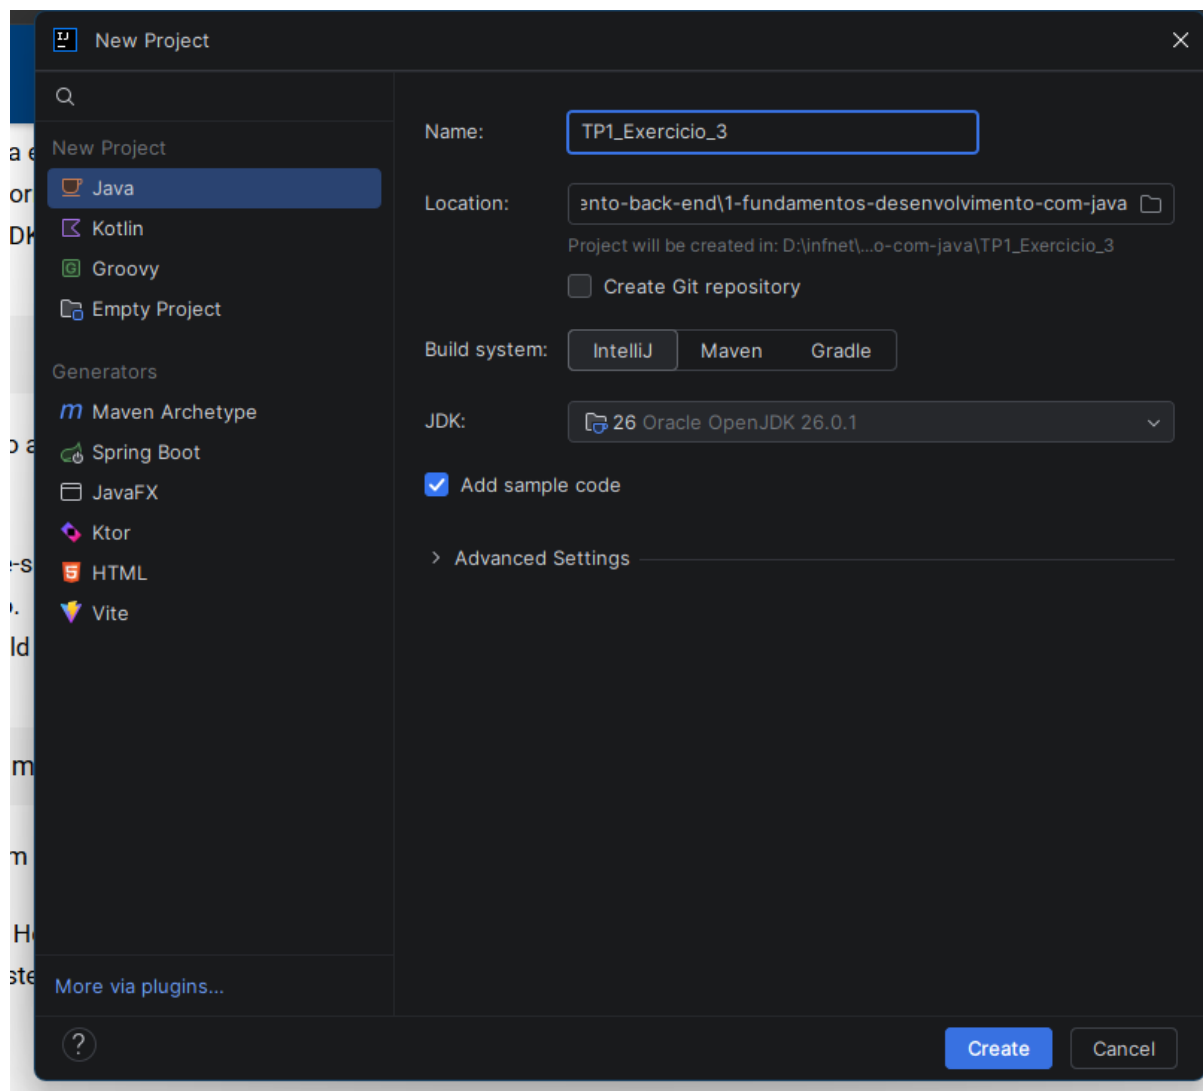

```

An 'About IntelliJ IDEA' dialog box is open in the center of the screen, displaying the following information:

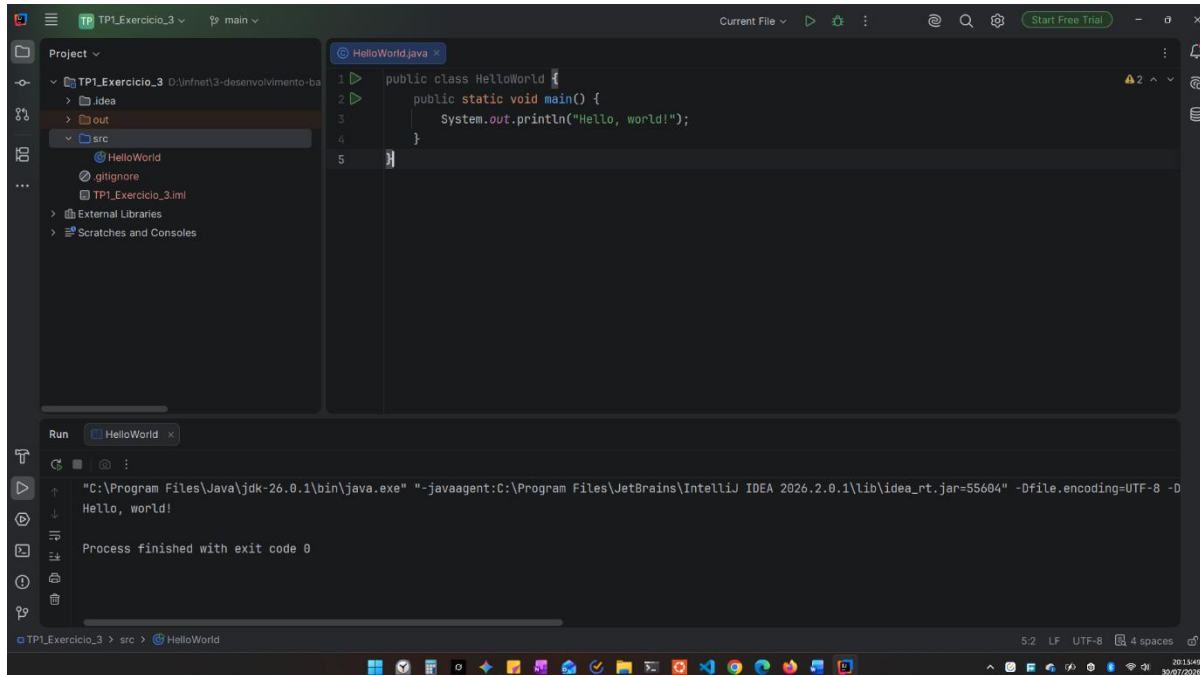

- IntelliJ IDEA 2026.2.0.1**
- Build #IU-262.8965.337, built on July 22, 2026
- Runtime version: 25.0.3-b-0208.19 amd64

At the bottom of the dialog box, there are two buttons: 'Copy and Close' and 'Close'.

Exercício 3:

Exercício 4:

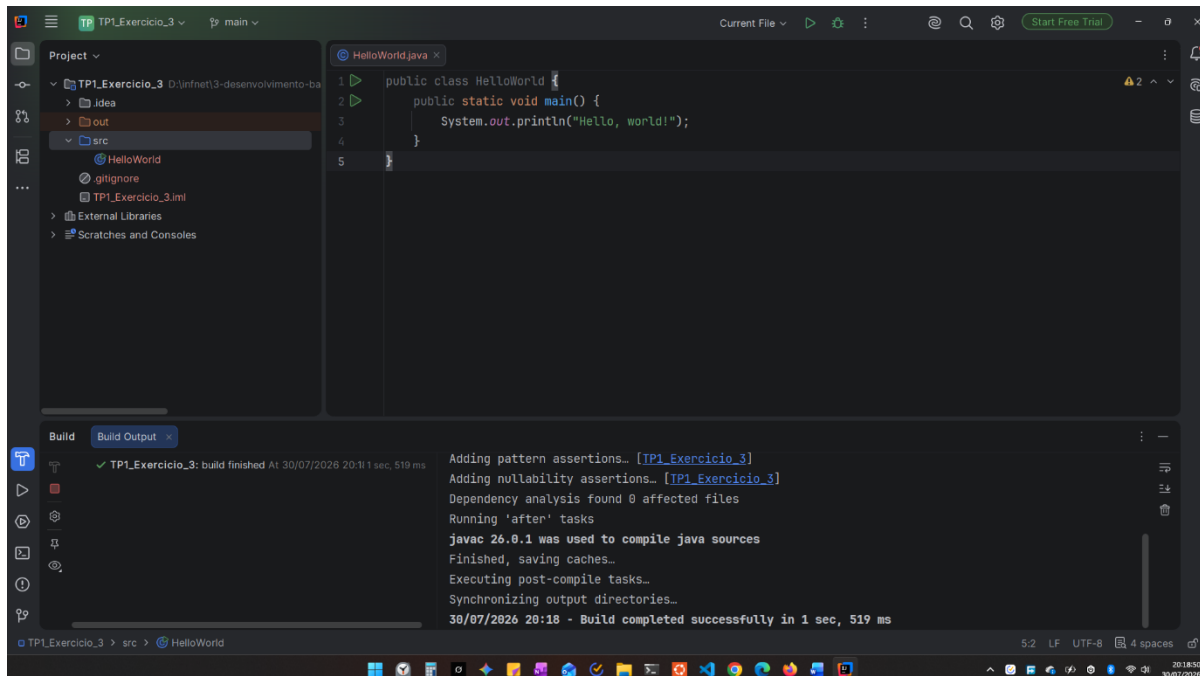

The screenshot shows the IntelliJ IDEA interface with a project named 'TP1_Exercicio_3'. The 'src' directory contains a file named 'HelloWorld'. The code in 'HelloWorld.java' is as follows:

```
1 public class HelloWorld {
2     public static void main() {
3         System.out.println("Hello, world!");
4     }
5 }
```

The 'Run' tab at the bottom shows the execution output:

```
"C:\Program Files\Java\jdk-26.0.1\bin\java.exe" "-javaagent:C:\Program Files\JetBrains\IntelliJ IDEA 2026.2.0.1\lib\idea_rt.jar=55604" -Dfile.encoding=UTF-8 -D
Hello, world!
